### Skylaunch Control Panel with presets for Glider type and headwind component:

Blue Colour-Coded (Launch) Levers-  
A) Transmission Select Lever (N>D)  
B) Engine Throttle Lever  
C) Drums Brake Lever (both Drums)

Black Throttle Pre-selects-  
1) Headwind Speed  
2) Glider Type  
(See attached Throttle Setting Chart)

*For safety, all controls are designed to operate as push to **go**, and pull to **stop**.*

#### **Before Launch (Black Levers):**

Preselect Headwind Speed (1)  
Preselect Glider type to be launched (2)  
Select left or right Drum

#### **To Tighten Cable (Blue Lever):**

Select Transmission Lever to D Position (A)

#### **To Launch (Blue Levers):**

Apply Throttle to preselected guide stop (B)  
*Throttle damper controls correct acceleration rate*
