

GLIDER WINCHES & SPECIAL PROJECTS

E11-E14 Wem Industrial Estate,

Wem, Shropshire, SY4 5SD ENGLAND

Tel: +44(0) 1939 235845

Following many years of experience, and in co-operation with the British Gliding Association, we now have the following revisions to the control panel throttle guides, to simplify operation in stronger headwind conditions. Please update your winch to the new specification at the earliest opportunity.

If you need any help or advice with these changes, please contact Skylaunch at skylaunchwinches@yahoo.co.uk or telephone 01939 235845.

A kit of new labels and blanking bolt / washer are available for £8.50, plus postage and packing, plus VAT.

Revisions are:

1. Blank off 25 and 20 knots headwind setting (last two notches)
2. Re-label 15 with 20+knots
3. Re-label 10 with 10 – 15
4. 0 and 5 remain the same
5. Replace headwind label with 'GROUND LEVEL HEADWIND COMPONENT AT LAUNCH POINT'
6. Add new warning label 'THROTTLE GUIDE IS NOT A SUBSTITUTE FOR TRAINING AND JUDGEMENT'

NB. On early models the notches are marked 0, 1, 2, 3, 4 and 5 – not 0, 5, 10, 15, 20 and 25.
